

SMART Board® SBID8070i-G4

These drawings are for outline and installation purposes only.

All dimensions are given in inches (millimeters).

Dimensions are subject to change without notice.

All dimensions +/-1/8 (3mm)

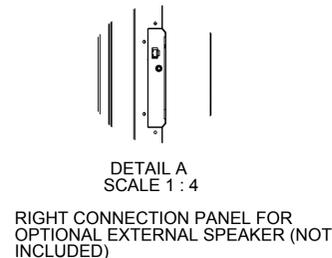

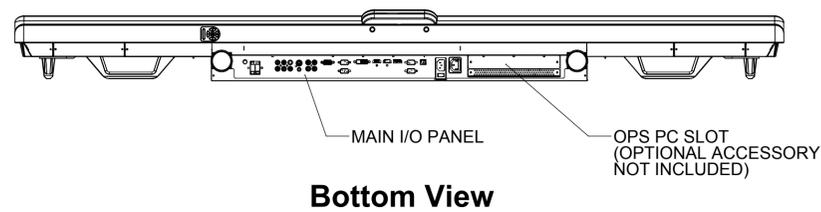

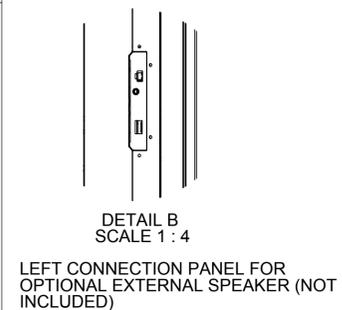

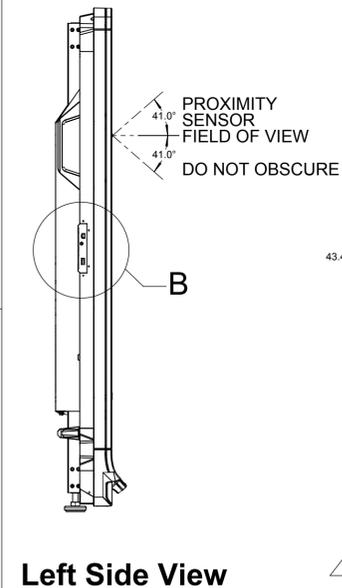

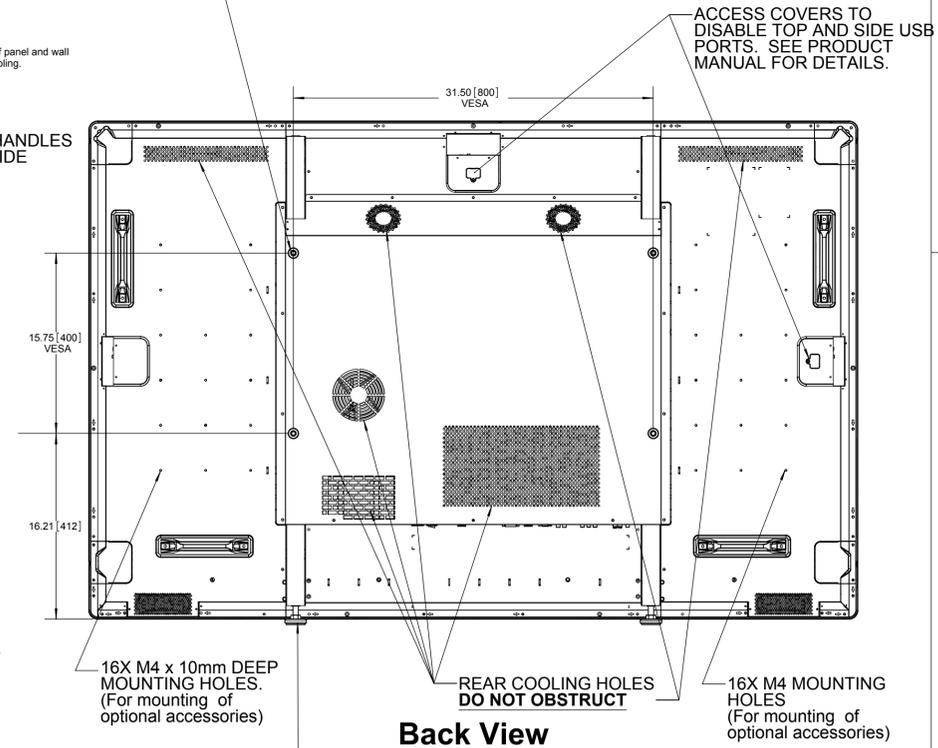

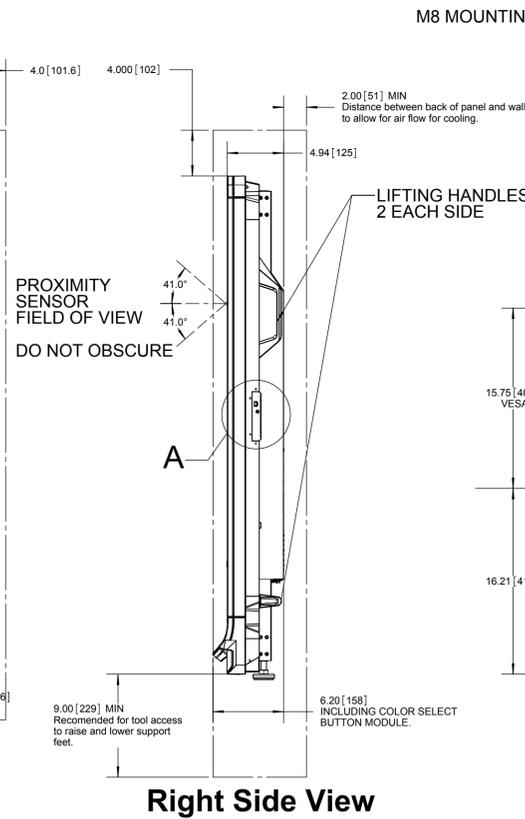

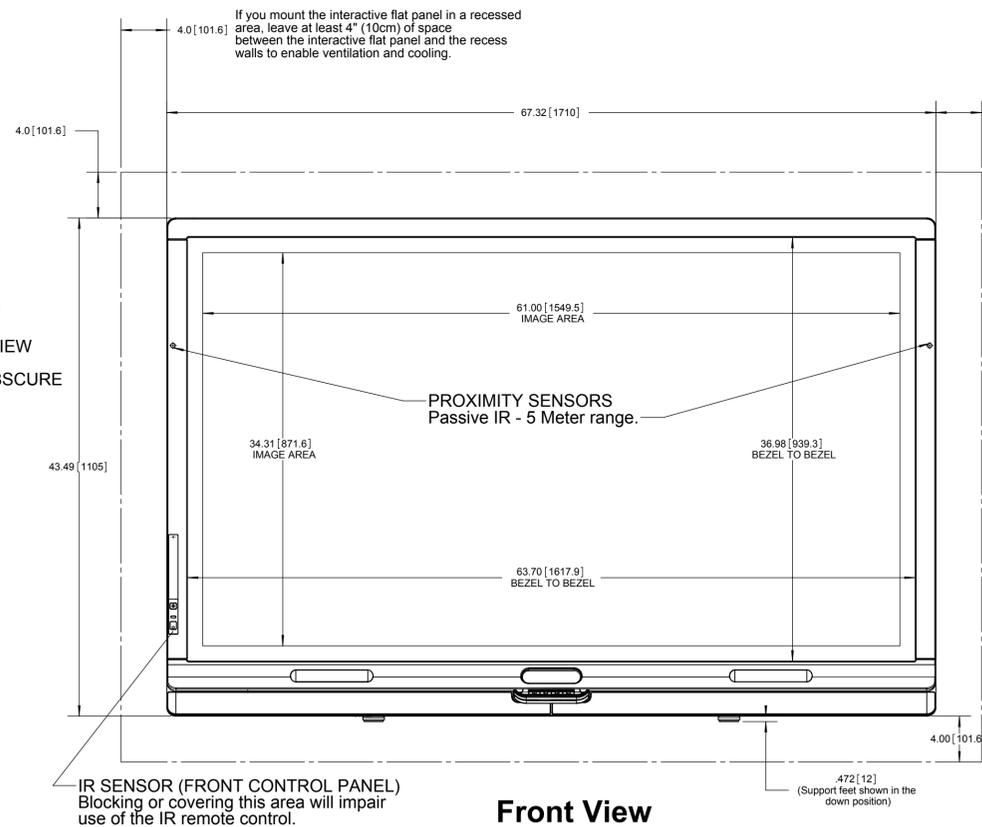

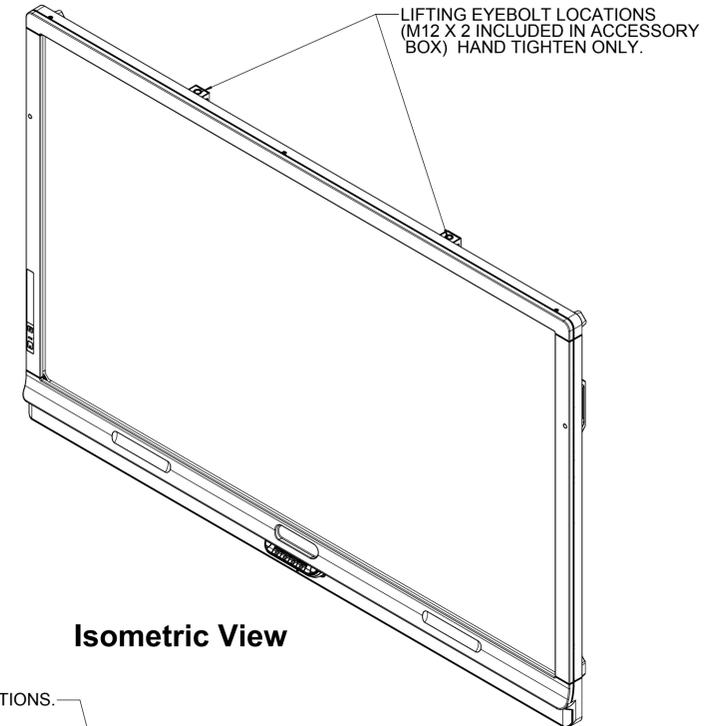

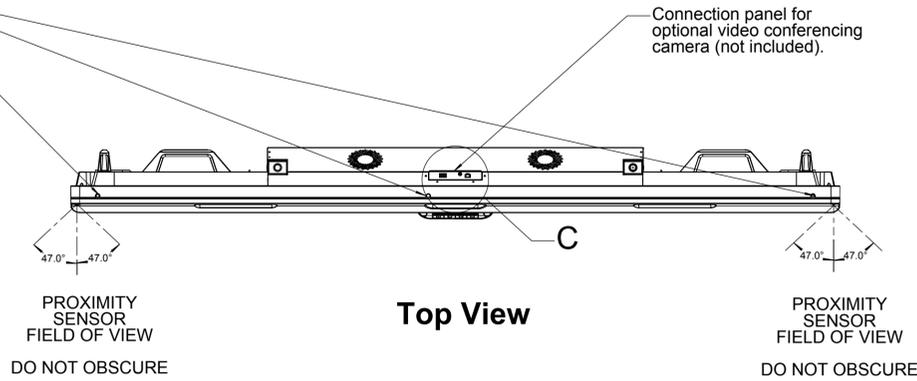

NOTE: DO NOT SCALE

The contents of this document are compiled from a variety of documents to provide a consolidated view of key criteria. Should there be any information you need that is not adequately captured in either this document or the related documents, please contact us at ecosystem@smarttech.com for assistance.

This document is uncontrolled at the time of printing. Please ensure you are using the latest revision available at sen.smarttech.com

Mounting points for optional video conferencing camera (not included). (Centre position normally used for single panel installation, right position on left panel normally used for dual panel installation).

Connection panel for optional video conferencing camera (not included).

The panel has retractable support feet on the bottom left and right sides. These are used for supporting the panel on the floor (if necessary) during installation and prevent damage to the bottom bezel of the panel. The panel is shipped with the support feet in the down position. They can be screwed to the retracted position with the use of a screwdriver from the bottom of the panel so they are hidden from the front view.
